DYNAMIC PURCHASING SYSTEM (DPS)

A FLEXIBLE ALTERNATIVE ROUTE TO MARKET

CHIC has a comprehensive DPS, offering a wide selection of categories across all service areas. Contract selection and awards under the DPS must be via a competitive mini tender; CHIC will support and guide members during the tender process, all run through the CHIC eSourcing portal.

Advantages to members of using the DPS are:

- Contractors and suppliers can join the relevant category at any time
- If leaseholder consultation is required (s20 works) for a project or programme, then the DPS still enables an efficient route to market
- CHIC agrees with the member the level of engagement they require.

All CHIC tendering opportunities and contract notices can be found on the:

CHIC ESOURCING PLATFORM

All contracts procured through CHIC's DPS must be via mini tender. CHIC invites the registered DPS contractors or suppliers to tender, following PCR 2015 regulations and your agreed specification, remaining compliant at all stages in the process. Those who are interested will enter the tender process and the most advantageous tender will be awarded to deliver the required services.

FATS NO. 2018/S 057-126090

AWARDED: 20/03/2018

Asbestos is a hazardous material that was widely used in the construction industry until it was banned in the UK in 1999. It is still present in many older buildings, including social housing properties and can pose a serious risk to health if it is disturbed or damaged. As a result, it is essential that social housing providers have a compliant and effective route to market for asbestos services, including surveys and removals.

CHIC's Asbestos Dynamic Purchasing System offers a comprehensive solution for organisations to access these services. By using CHIC's Asbestos DPS, social housing organisations can ensure that they are meeting their legal obligations, protecting their tenants' health and wellbeing and managing the risks associated with asbestos in an efficient and effective manner.

The DPS is split into two different Lots as below:

Lot 1: Asbestos Survey

Including (but not limited to) all asbestos surveying services across surveying, sampling and analysis of asbestos for domestic and commercial/communal areas (both occupied and void). All will be to the relevant British Standards at the time of draw down.

Lot 2: Asbestos Removals

Including (but not limited to) all asbestos removal from domestic and communal / commercial areas (both occupied and void). All will be to the relevant British Standards at the time of draw down.
