

CHIC FRAMEWORK
BUILDING WORKS

AVAILABLE TO CHIC MEMBERS

BUILDING WORKS

REF: 2019/S 064-148223

START: 24/12/2019

END: 22/06/2024

CHIC's Building Works framework plays a vital role in meeting the diverse needs of its members engaged in planned construction and renovation projects. This framework encompasses essential construction and maintenance services, serving as a valuable resource for CHIC members looking to enhance their housing portfolios.

These types of works are crucial for social landlords as they directly impact the quality of residents' living conditions. Upgrading and maintaining essential spaces like kitchens, bathrooms and electrical systems not only improve functionality and aesthetics but also contribute to tenant satisfaction. This can lead to increased tenant retention and a positive community atmosphere.

Additionally, services like roofing repairs and replacements ensure the longevity and structural integrity of properties. Roof maintenance is essential to protect against weather related damage, safeguarding properties from leaks and other structural issues. Heating system installation, servicing and repairs are equally important, particularly in colder months. Effective heating systems not only create comfortable living spaces but also contribute to energy efficiency, benefitting both landlords and tenants by reducing energy costs.

Fire spread prevention measures, including fire resistant materials and systems, are paramount for safety and compliance. Ensuring the safety of residents is a top priority for social landlords, and these measures help meet safety regulations and protect tenants' wellbeing.

The framework is split into five different Lots as below:

1 Kitchens & Bathrooms

This lot addresses the installation and replacement of kitchens and bathrooms, ensuring that CHIC members can enhance the functionality and aesthetics of their properties, providing residents with modern, maintainable and comfortable living spaces.

2 Roofing

Lot 2 focuses on roofing services, including repairs, replacements, and maintenance. By accessing this lot, CHIC members can ensure that residents are protected from weather ingress and dampness related disrepair whilst safeguarding their properties from unnecessary damage to the fabric or structural integrity of their buildings.

3 Electrical

Electrical services are crucial for the safety and comfort of residents. Lot 3 covers all electrical needs, including installation, maintenance, and repairs, ensuring that properties meet the required safety standards.

4 Heating

Heating systems are vital for maintaining a comfortable living environment. This lot addresses heating system installation, maintenance, and repairs, making it easier for CHIC members to provide residents with efficient and cost-effective heating solutions.

5 Fire Spread Prevention

Fire safety is of utmost importance in any housing setting. Lot 5 offers solutions to prevent the spread of fires, helping CHIC members meet safety regulations and ensure the protection of their residents.

CHIC members can use this framework to streamline their procurement processes, access reliable service providers, and ensure that their properties are competent and reliable with safety standards. The Building Works framework provides a valuable resource to CHIC members looking to enhance the quality of their housing portfolio.

OUR SUPPLIERS

34 service providers have been selected following a PCR 2015 compliant, unranked procurement process. Access to the framework is available via direct award or mini-competition.

MORE ABOUT CHIC

CHIC is a not for profit, member owned and governed asset management consortium. We offer a wide selection of services for our members in the affordable housing sector, for other public sector bodies and for charities. We provide procurement and contract support solutions, delivering savings, efficiencies and added social value.

Membership

Membership of CHIC is open to any housing association, public sector body or charity. It is free to join and members can use as few or as many of our services as they choose.

Services

CHIC provides a comprehensive selection of services. Together, these provide a full suite of contractor and supply chain solutions for affordable housing landlords and other public sector bodies, across their asset management and development programmes. All services are underpinned by a range of frameworks, a dynamic purchasing system (DPS) and some long-term contracts.
