CHIC FRAMEWORK
NEWBUILD

AVAILABLE TO CHIC MEMBERS

NEWBUILD FRAMEWORK

REF: 2023/S 000-011920

START: 07/03/2024

END: 06/03/2032

CHIC's Newbuild Framework provides a comprehensive solution to deliver all types of development related works and services to help tackle the housing shortage. It caters for a wide range of project types, from small infill and garage sites to large estate regeneration projects including newbuild, refurbishment/retrofit and cross subsidy housing for sale. It also provides MMC solutions including fully modular, frame & panel and turnkey options.

The framework addresses the specific needs identified through member consultation, including a longer term duration, MMC options and support, consultancy services, a solution for larger regeneration projects, the use of standard contracts, BIM integration and a focus on collaborative and social value outcomes.

Members can access the framework via mini-tender or direct award, offering flexibility in procurement processes. The framework has been carefully considered so that it aligns with the Government's recommendations for Constructing the Gold Standard, emphasising quality, innovation and sustainability.

A dedicated Framework Core Group is established to facilitate learning, standardisation and collaboration among stakeholders to ensure that the sector is working towards the same goal, delivering new homes efficiently.

This framework offers our members an inclusive approach, encouraging innovation, collaboration and added social value. We believe it will help our members to deliver their newbuild developments efficiently, setting a gold standard for the sector.

FRAMEWORK STRUCTURE

REF: 2023/S 000-011920

START: 07/03/2024

END: 06/03/2032

The framework lots and workstreams were shaped through consultation with CHIC's members, consultants and contractors to ensure that it offers a compliant route to market that addresses the sectors evolving needs.

The framework is split into three different Lots as below:

Lot 1: Consultancy Services Providing access to a wide selection of organisations providing expert consultancy under the following workstreams.

Workstream 1 – Project Management Services including Employers Agents

Workstream 2 – Architectural Services

Workstream 3 – Structural and Civil Engineering Services

Workstream 4 – Principal Designer Services

Lot 2: Contractors/MMC Manufacturers Providing flexibility and efficiency, allowing members to choose from a range of construction approaches that suit their specific project requirements.

Workstream 1 – Contractors (traditional & main contractors for MMC)

Workstream 2 – Fully Modular (supply only)

Workstream 3 – Frame and Panel (supply only)

Workstream 4 – Contractor/Manufacturer turnkey option

Lot 3: Development & Regeneration Intended for large-scale projects, providing a comprehensive approach to urban renewal. It offers solutions for newbuild developments, refurbishment, retrofitting and cross-subsidised housing for sale.

Workstream 1 – Regeneration

OUR SUPPLIERS

We support members to identify the best solution for their particular needs, then manage the contractor or supplier selection with them through to the award of contract. CHIC then provides ongoing support services to ensure that the selected contract or service runs smoothly.

MORE ABOUT CHIC

CHIC is a not for profit, member owned and governed asset management consortium. We offer a wide selection of services for our members in the affordable housing sector, for other public sector bodies and for charities. We provide procurement and contract support solutions, delivering savings, efficiencies and added social value.

Membership

Membership of CHIC is open to any housing association, public sector body or charity. It is free to join and members can use as few or as many of our services as they choose.

Services

CHIC provides a comprehensive selection of services. Together, these provide a full suite of contractor and supply chain solutions for affordable housing landlords and other public sector bodies, across their asset management and development programmes. All services are underpinned by a range of frameworks, a dynamic purchasing system (DPS) and some long-term contracts.
