KITCHEN SUPPLY

REF: 2023/S 000-035167

START: 24/11/2023

END: 23/11/2027

CHIC's framework gives access to companies offering specialist Kitchen suppliers, enabling the supply of pre-assembled Kitchen units. It is available to CHIC's Members and authorised users, offering efficient procurement routes and supporting asset management and development strategies.

An efficiently installed kitchen that is aesthetically pleasing and functional not only elevates tenant satisfaction but also contributes significantly to the longevity and functionality of properties. By focusing on effective installations through our framework, landlords ensure happier tenants and minimise long term maintenance costs. There is also the option to opt for supply only, so you can utilise your own relationships with localised contractors.

This forms part of CHIC's wider suite of services, integrating with Materials, Capital and Planned Investment, Decarbonisation and Renewables and Facilities Management. It's a practical solution streamlining procurement and enhancing strategies for social housing landlords.

The framework is split into two different Lots as below:

Lot 1 – Supply Only: This lot facilitates nationwide specialist Kitchen suppliers to supply high level specification systems. The scope and structure of the lot includes the supply of pre-assembled (including adapted kitchens) and associated components supplied, distributed and supported by the chosen supplier dependent on installation by others.

Lot 2 – Supply & Fit: This lot facilitates nationwide specialist Kitchen suppliers to supply high level specification systems. The scope and structure of the lot includes the supply of pre-assembled (including adapted kitchens) and associated components supplied, distributed and installed by the chosen supplier when used on new build properties.

OUR SUPPLIERS

6 service providers have been selected following a PCR 2015 compliant unranked procurement process. Access to the framework is available via direct award or mini-competition.
